

DRIVE EFFICIENCY & ACCELERATE OPERATIONAL EXCELLENCE

BEING BUSY MAY NOT BE BEING PRODUCTIVE

Best Practice,
Best in class
& Engineering
practice

ddBM

Poor Practice,
Late Starters
& Neglected
Functions

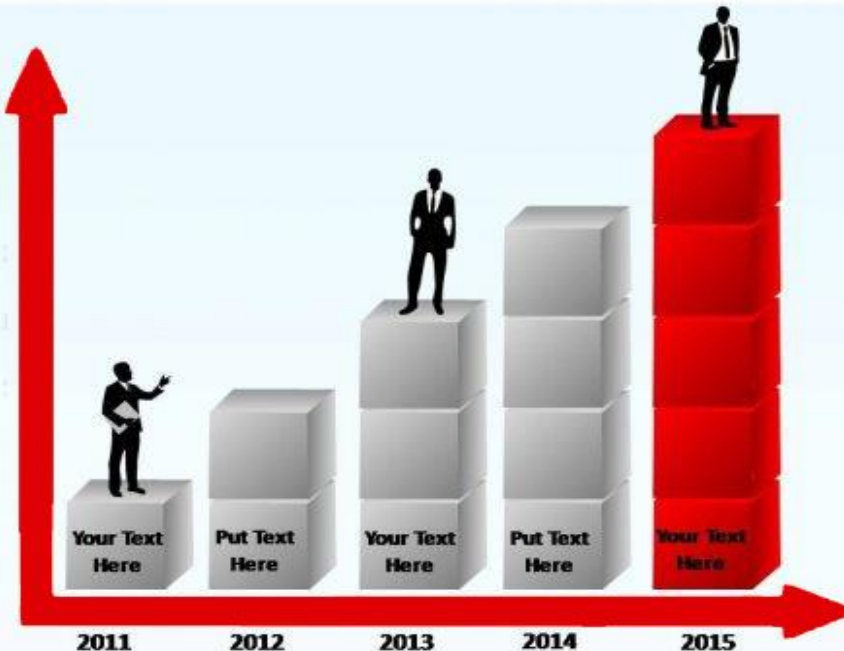

- Well defined process
- Cross functional working
- E-enabled, flexible access
- Global knowledge network
- Expected results
- Tension less working

- Inconsistent way of working
- Manual & Unstructured process
- Firefighting unexpected problems
- Unsatisfactory results
- Centralised decision making

Increase Productivity and Profits

Growth Parameters

- **Employees earn higher incentives**
- **Company earns higher profits**
- **Managers learn the latest cutting technology leading to self satisfaction**

Relief From Pain

WITH REAL TIME INFORMATION TO THE DECISION MAKERS, GET RELIEF FROM PAINS LIKE:

- Pain due to delayed shipment
- Last minute quality problems
- Last minute size variations and packing list preparation
- Airfreight costs, due to delay in shipment
- Penalties due to late shipment

My body is experiencing technical difficulties right now.

Makes Your Employees Proud, due to Participative Management

- Buyers are very keen to have updated information on their orders and track the production
- Your employees get motivated, due to cooperative production methods; and feel proud about the company

Tensionless & System Oriented Production

Without information the problems shoot up at the last stage; Requiring urgent and immediate solution. This leads to tension and wrong decisions.

- Instead of firefighting, managers can pro actively solve problems
- Last minute tension is avoided, as sufficient time is available to take remedial actions; leading to relaxed working

SYSTEM ORIENTED PRODUCTION

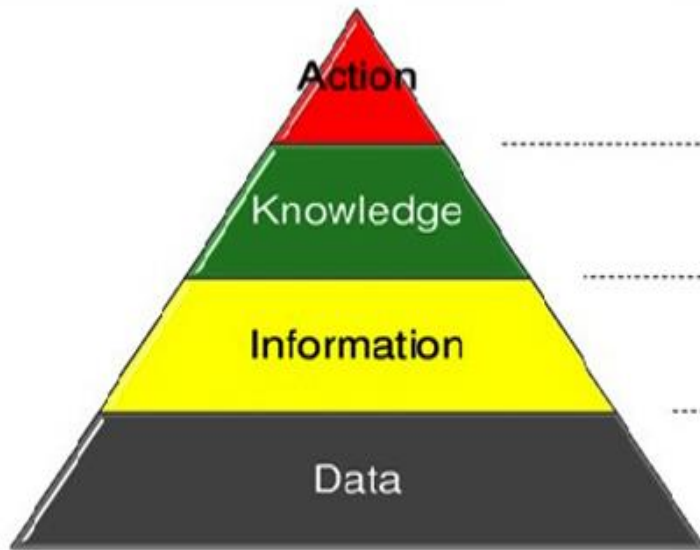

Make Your Company the Best

- With higher margins, hassle free production, latest technology, make your company proud
- Easy buyer approval and compliance from buyers

Target State – From Data to Action

Action Drives Data

The end-to-end process view across data-to-insight and insight-to-action can help design effective analytics solutions and enable targeted change management to embed them into business processes. In many respects, this is the real power of ddBM

REAL – TIME EASY AND QUICK DECISIONS

**ddBM based
decision**

Better
Interpersonal
communication

More Real time

One version of
Truth

Fact based decision

More scalable

REDUCE YOUR RISK/LOSS

- Reduction of time spent on buyer audits
- Risk reduction due to employees effective participation/training
- Better buyer compliance, leading to future growth
- Quality and inspection happens along side production and does not wait for the end

Where you are headed is much
more important,
than what you have left behind

**MANY LOOK AT LIFE THROUGH
REAR VIEW MIRROR**
